

Electrical safety training for first responders

BC Hydro offers free online electrical safety training for first responders so you can learn how to face electrical hazards safely.

As a first responder you often find yourself facing electrical hazards in emergency situations. Our free Electrical Safety training will help you evaluate risks and make decisions to keep you and the public safe.

Get the safety training you need today. Visit bchdropublicsafety.udutu.ca to take the course. Supplemental training available for fire fighters.
